

Marquetry and Lampwork

THE MARQUETRY SOCIETY OF CANADA'S goal is to promote this exciting but lesser known craft. Join us to discover this creative and ancient art form, sometimes referred to as "painting or quilting with wood"! www.marquetrysociety.ca

Fudge Lake

Discover the woodworker's version of quilting using thin natural coloured wood veneers to create patterns, designs and pictures. Meet the artists and watch the step-by-step process of creating an image using a knife or fretsaw table. Marquetry is a hobby that is relatively inexpensive compared to others and requires very little working space. If you would like to experience how creative this hobby can be, you can build a small image using two to three veneers with our Make and Take projects offered in the morning. Or even better, sign up for this year's Fall Conference Workshop, and find out how relatively simple marquetry can be. This year's project is Fudge Lake.

Thurs, Fri, Sat 1:00 pm- 4:00 pm Marquetry Society Booth

Class Fee \$30

Kit Fee \$15

NORTEL MANUFACTURING'S mandate is to assist up-and-coming artisans by providing the expertise and equipment to jump start your journey into the wonderful world of glass art!

Introduction to Glass Bead Making

Come learn the basics of winding hot molten glass around a mandrel, creating classic bead shapes, placement of dots, pulling and using a stinger as you work on a Nortel® classic minor bench burner (a surface mix torch). Receive an overview of glass, tools, equipment and enjoy demonstrations on the use of tab beads, encasing and bead presses.

Thurs and Fri 9:00 am – 12:00 pm and 1:00 pm – 4:00 pm Nortel Booth

Sat 9:00 am – 12:00 pm Nortel Booth

Class Fee \$30

Kit Fee \$25
