Kellie Kaczmarek **SILLY MOON QUILTING CO.**

I am a local quilter from Mission B.C., business owner, wife and mother. I have been quilting for a short time but have jumped in with both feet! I purchased a longarm and needed “rulers” to keep me within the lines, so to speak. So, I made them! I expanded my ruler work to a domestic machine and am loving that as well! I started Silly Moon Quilting Co. to share the rulers and learn as much as I could about quilting. I am enjoying the journey, and love sharing new ideas and products as well as hearing from other quilters what they would like to see in the ruler world. I believe small business is the cornerstone of Canada and consequently all our rulers are made in Canada!

INTRO TO RULER QUILTING

Have you ever wanted to try ruler quilting? Are you confused as to the need and want items for ruler quilting? Are you unsure what thickness of rulers you need to use? Can you use rulers for quilting on a Domestic machine? Lorna Shapiro QUILTER'S DREAM FABRICS

My 33 year working career was pretty much entirely “left brain”, consisting of 22 years working in the field of IT and 11 years as an Associate Dean at BCIT. Post retirement, every activity I have taken up seems to be of the “right brain” variety. I became so passionate about my quilting, working with Asian and Batik fabrics, that I started a small business selling a fine selection of those quilting cottons – and now silks -- to quilters both local and international. Happily, this also leaves me with the best “quilter’s stash” of fabrics imaginable! Quilting has become my consuming passion. I love the creative process starting with design and fabric selection, right through to the final hand-finishing of the bindings. Selling fabrics is a way to broaden the group of quilters with whom I come in contact and from whom I can learn. It also gives me the opportunity to socialize in a meaningful way with other women who are engaged in a creative activity that makes them happy, and I have made many new friendships as a result. Open “semi-occasionally”, I’m able to still enjoy the freedom of retirement, and of being a grandmother of two young girls and a grandson. Life is very good.

GETTING THE MOST FROM YOUR QUILTING TOOLS

I came to quilting once I retired in my mid 50’s, having already reached the stage of life when minimalism in my acquisitions was a goal. I have therefore approached this hobby with the perspective that I want to choose the tools I work with carefully – choosing only those that are necessary or that significantly benefit the quality or efficiency of my work. And, once I’m working with a tool, I want to make sure I’m getting the most out of it. Nearly 15 years later, I’m still minimalist in my approach... and I’d like to share with you what I’ve learned about which tools give me the greatest payback, and how to get the most out of them.

We’ll discuss threads, needles, rulers, oil, cutting boards, cutting tools, marking tools, pins... and more. Come and join us. I hope you’ll share your favourite tip for getting the most out of your tools.

TIPS ON CHOOSING A FABRIC PALETTE

I frequently encounter other quilters who have a fear of choosing the fabric palette for their next quilt. And I can certainly empathize because that was huge for me when I started quilting. If I couldn't wear the colour, I didn't know anything about it! And colour was only one of the variables! Where to start? Twelve years down the road, with a fair number of quilts (mine and my customers') under my belt, and I have some "lessons learned" that I'd like to share with you. We'll talk about where you might find inspiration, some basic principles that will get you started on a good path, some tips for stepping

outside your comfort zone, and a whole lot more. I hope you'll bring along your questions and suggestions to share with us too!
